

What would a scientist think of this?

What would a person stranded in a desert think of this?

What would a fisherman think of this?

What would a fish think of this?

What would a cat think of this?

What would a chef think of this?

What would a thrill-seeker think of this?

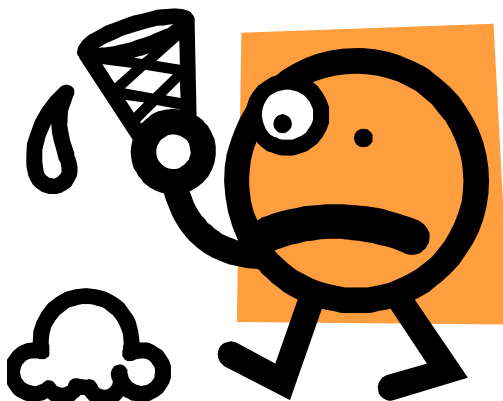

What would a person scared of heights think of this?

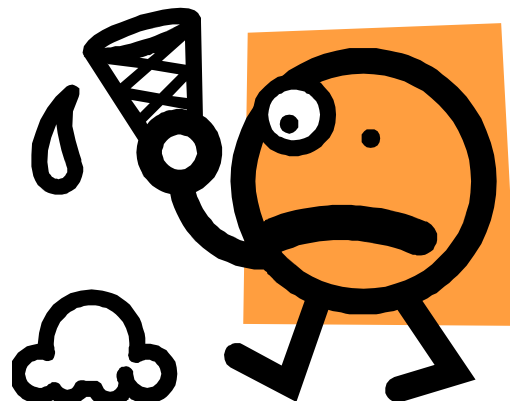

What would a very hungry person think of this?

What would a person with a stomach flu think of this?

What would a child think of this?

What would a dog think of this?

I wonder what
plants and animals
I could study here?

Finally, water and
shade!

I can't wait to go
fishing today!

Watch out for the
hook!

I'm going to catch
that for dinner.

AH! Get this
rodent out of my
kitchen!

This is so exciting
and exhilarating!

Never in a million
years would I take
that risk!

Finally, dinner!

I can't even think
about food right
now, I'll be sick.

Oh no, my
breakfast spilled.

Oh good, his
breakfast spilled,
now I can eat it!
