Psychological Profile Reflection Questions

How did your understanding of your group's character change as a result of this activity?

Thinking about all of the groups' presentations, which psychological factors seem to be most important in influencing characters' motivations in the novel? Why do you think this might be?

In your opinion, how are the psychological factors that most affect people today similar to and different from those you saw at work in the novel?

How effectively did your group collaborate while participating in this activity? What's something your group did well? What's something your group could do better next time?
