Issue Three	<ul style="list-style-type: none"> • Change education • Increase money for Head Start • Recruit more people to go into the teaching profession

Sample Script:

"I stand for change you can believe in. I promise to bring our troops immediately home from Iraq. All units will be home in sixteen months. Secondly, I will change our health care system. When Americans become ill, they will be cared for, because all Americans will be eligible for health care. Third, we need to prepare our children for tomorrow, so I promise to change our educational system. Funding to the preschool program Head Start will increase. Our country needs great, qualified teachers so we will recruit youth into the teaching profession. Together, we can change America. Yes, we can!"
