
Instructions for Creating a Powerpoint Story With Your Little Buddy

1. Tell your little buddy about the activity.
2. Talk to your buddy as you work through each of the following steps; offer to help if your little buddy needs it and let your little buddy try to do some things on his or her own.

Choose four or five photos from the class experience. Help your buddy put the photos in order in PowerPoint.

- Ask your buddy to describe each photo with words. Type the words while he or she says them.
 - Work together to edit the words on the screen. Help your buddy to make sure the words relate to or add to the meaning of the photos.
 - If you want, choose a different font or color for the words.
 - If there is time, add transitions, speech bubbles, or other effects.
3. Discuss new things your little buddy is learning throughout the activity. When the activity is over, ask your little buddy what he or she learned and what he or she liked.
 4. Compliment your little buddy
