

NAME _____ DATE _____ Pd. _____

INVENTION BROCHURE

REQUIREMENTS

The brochure should

- 1) be folded into thirds from a standard (8 ½ x 11) sheet of paper. (See Sample.)
- 2) be done entirely on a computer or entirely by hand or any combination of the two.
- 3) have a decorated cover.
- 4) have a statement of the need for the invention.
- 5) have a description of the experiment done to test the invention.
- 6) have at least one graph.
- 7) have some information about pricing and ordering the invention.

HINTS FOR USING WORD PROCESSING TO MAKE YOUR BROCHURE

- 1) Go to Page Setup and set the margins for the smallest amount that the system will permit.
- 2) While in Page Setup, go to Paper Size and select "Landscape."
- 3) From the "Format" pull-down menu select columns and select "Three Columns."
- 4) Plan your work so that the cover ends up in the correct column. (See Sample.)
- 5) Insert images and graphs as you wish.

Think about where the pages will be after you do the folding!
