**Group 2:** What are the characteristics of bullies?

**Group 3:** What are the characteristics of victims?

Write the question your group was assigned in the space provided. Then, consider what you know about the topic and your own personal experiences. List your ideas. Pose the question also to your friends and family. Add information you gather from these conversations to your list.

In our next session, you will have an opportunity to meet with your group to share your answer and compile a composite of ideas to present to the class.
