Name: _____ Date: _____

Find the Word!

Instructions: Record the name and URL of the website you have selected. On the lines under the chart, write the words that you are assigned to find. Using the Find function, search the online article for the words. Starting at the bottom of the appropriate column, create a bar graph by blackening a box each time you find a word. For each word, copy one sentence from the article that includes the word. Examine your bar graph and draw conclusions about the use of the words in the article. Compare your graph with peers who have searched for the same words in a different article.

Website Name: _____

URL: _____

Number of appearances

_____ _____ _____
Word 1   Word 2   Word 3

Sentence in the Website Using the Word (if found):

Word 1: _____

_____

Word 2: _____

_____

Word 3: _____

_____
