**UNIT OBJECTIVES:** The student will select one of the solutions to a problem and conduct background research about the problem and the potential invention. The student will build a working three-dimensional model of the invention OR an actual invention to solve the problem.

**PURPOSE:** The purpose of this document is to allow the student to officially register his/her "INTENT TO INVENT." This DISCLOSURE STATEMENT may be changed or replaced by submitting a new document to the teacher.

**PROBLEM:** Briefly describe the problem(s) that you are trying to solve or improve with your invention.

**INVENTION:** Briefly describe with words and/or diagrams the invention that you intend to build.

What **DATA** will you be collecting? (Remember, you will need to draw a graph of your experimental results. Think in terms of independent variable, dependent variable, control, and constant.) "Opinion Surveys" and projects involving animals as test subjects are not considered appropriate for this project.

**MATERIALS:** ON THE BACK OF THIS SHEET you should list the materials that you will need. Indicate the source (where you will get the materials) and the approximate cost (enter 0.00 for free items and items that you will not need to buy).
