Making A Poster: Assessment of Dialogue Tag Venn Diagrams

CATEGORY	4	3	2	1
Content	At least 7 dialogue tags are listed for each character.	5-6 dialogue tags are listed for each character.	3-4 dialogue tags are listed for each character.	Fewer than 3 dialogue tags are listed for each character.
Knowledge Gained	Group can defend analysis statements and answer questions related to the characters by using clear examples from the text and references to the groups' discussion.	Group can defend analysis statements and answer most questions related to the characters by using some examples from the text and references to the groups' discussion.	Group can state the analysis statements and occasionally answer questions, but defense of analysis statements does not refer to the text or discussion.	Group appears to have insufficient knowledge about the analysis statements.
Analysis Statements	Analysis statements demonstrate careful consideration of how the characters' dialogue tags relate to the characters' actions, showing how the two elements combine to form the characters' gender identities.	Analysis statements demonstrate understanding of how dialogue tags can be used to represent the characters' personalities and gender identities.	Analysis statements generally relate to the characters' personalities, but little connection to the dialogue tags or gender identity is evident.	Analysis statements are vague generalizations with no connection to dialogue tags.
