Previewing the Website: The Great Idea Finder
(http://www.ideafinder.com/history/index.html)

1.   How has the website designer organized the list of inventions?

2.   When would a user find the organization of information on the Invention Facts & Myths web page to be most helpful?

3.   When would a user find the organization of the Innovation Timeline web page to be the most efficient way to locate information?

4.   When would a user find an alphabetical list of inventors more helpful than a chronological organization of inventions?

5.   Why are some of the invention names in blue and underlined?

6.   How can an invention be found quickly on the Innovation Timeline web page?
