

Date: _____

Dear Families,

We just read the book *Officer Buckle and Gloria* by Peggy Rathmann. The book has several safety tips in it. For a homework assignment, your child will need to think of two safety problems, identify why they are problems, and then come up with a safety solution for each one. Please work on this assignment together.

Example:

Safety problem: Riding your bike without wearing a helmet.

Why it is a problem: You could fall off your bike, hit your head, and get hurt.

Safety solution: Always wear a helmet when riding your bike.

Please return the homework to school by _____. It is essential to complete this assignment because we will be using it in the next activity for this lesson on safety. Each child will be creating a poster that will communicate an important safety tip to other people. To communicate our safety messages with others, the completed posters will be on display at _____ on these dates: _____.

Thanks for your help!

Sincerely,
