

# Report #2

## Student Directions:

Take notes on your nonfiction book using index cards. (The note cards will be turned in with the final report.) Then write a summary of what your book is about in your own words. In your summary include at least six (6) facts that you learned from reading the book.

You will need a total of eight (8) slides to complete this project:

- Slide 1 lists the title and other information about the book (as shown below).
- Slides 2–7 list the six facts that you learned from reading the book. Each fact *must* be on a separate card.
- Slide 8 is for your summary.

(Slide #1)
