

# Multigenre Self-Assessment

When your multigenre project is complete, take some time to think about the pieces and the genres you chose to include by answering these questions:

1. What winter topic did you choose?
2. What resources did you use? (for instance, dictionary, encyclopedia, Web pages, nonfiction books, etc.)
3. What genres did you include in your multigenre project?
4. How did you decide to use these genres?
5. What did you like best about the multigenre project?
6. Did you have any difficulties in creating this project?
7. Are there things that you would change the next time you work with multigenre?
