

## Project Ideas

- Extend the song by creating a stanza for the 1990s.
- Compile a list of books that represent the concerns addressed in your section of the song.
- Write lyrics for a year preceding the beginning of the song, 1949.
- Write lyrics based on the events of the decade you were born in through the present.
- Using a world map, locate and label the event locations mentioned in the song lyrics. You can also note the time period these locations were mentioned.
- Working in groups, choose a decade and create a group PowerPoint presentation, which highlights the selected terms, items, and people from your section of the song.
- Create a 10-page flip book, with each page devoted to one year of a decade.
