

Sample Explanation

The LOST category of words for *The Hobbit*

- Being Lost
- Invisible
- Lying
- Fear
- Weird
- Dark

Bilbo Baggins is **lost** in the caves after he and the dwarves escape from the Goblins. He is separated from the others in the **dark** and finds a ring. The ring allows him to become **invisible**. He talks to the ring's owner **Gollum** and ends up making himself **invisible** to escape. He was in **fear** that Gollum was going to eat him. He **lied** to **Gollum** and put on the ring. The whole thing is very **weird** for Bilbo because he does not know where he is or what has happened to the others.

These words all belong in the category LOST. They are all about things that relate to the part of the book where Bilbo is lost and alone. This is an important part of the story because Bilbo finds the ring, which he uses later in the story. Without the ring, the story would not be the same. So while these words are all about being lost, they are also about finding the most important treasure in the book.
