Dear Grandma,

Hi, Grandma! I wanted to write you a note thanking you for helping me with my school project last week. I really liked how much you knew about the war. You could tell me things that weren't even in the books I've been reading.

I had so much fun making all the artwork with you and getting all the photographs from Grandpa's days in the Army. It really helped my project look authentic.

Thank you again for all of your help. I hope we can spend some more time together.

Love,

P.S. My teacher has posted pictures of our projects on our school website, and you can go online anytime to see ours.
